Jl Bambu Ori I/37, Taman Yasmin, RT/RW 001/011, Kel. Cilendek Timur, Kec. Bogor Barat, Kota Bogor, Jawa barat, 16112

I am a dedicated and hardworking individual with a strong passion for continuous professional growth. I have hands-on experience in web development using HTML, CSS, JavaScript, PHP, and MySQL, as well as version control with Git. I am familiar with modern frameworks such as Angular, Laravel, and Symfony. I enjoy learning new technologies and tools, and I strongly believe that being a lifelong learner is essential in the ever-evolving field of software development.

Education Level

IPB University - Bogor, Indonesia

Aug 2021 - Oct 2025

Bachelor of Applied Computer Science, 3.54/4.00

Work Experiences

Universitas Indonesia - Depok, Indonesia

Mar 2026 - Present

Kontrak/Web Programmer

Universitas Indonesia (UI) is a modern, comprehensive, multicultural, and humanistic research university committed to advancing knowledge and contributing to national and global development. Established from its early roots in the Dutch colonial era and evolving through Indonesia's independence, UI strives to excel in education, research, and community service. Guided by its vision to be a leading center of science, technology, and culture, UI provides broad and fair access to high-quality learning, fosters an innovative and globally competitive academic community, and upholds noble character. Its logo symbolizes the tree of knowledge and the continuous growth of scientific disciplines, while the flowing "Makara" represents the spread of knowledge to society. Supported by a strong organizational structure—from the Board of Trustees to faculties and administrative teams—UI maintains an intellectual environment that prepares students to compete globally across various fields within the scope of the Tri Dharma of higher education.

- Transforming manual business processes into digital formats related to job analysis to improve operational efficiency in the UI environment
- Build a Performance Data Visualization Framework (Dashboard) as a strategic decision-making tool for leaders in mapping employee competencies and productivity
- Guiding employees to use the new digital business processes.

Universitas Indonesia - Depok, Indonesia

Sep 2025 - Feb 2026

Magang/Web Programmer
